

Prakhar Jain

PRODUCT DESIGNER | 0 TO 1 PRODUCTS | COMPLEX WORKFLOWS | AI + SYSTEMS
United States | 602 390 1516 | prakharjain180@gmail.com | linkedin.com/in/prakharvjain | prakharux.com

PROFESSIONAL SUMMARY

Product Designer with 3+ years shipping complex, high constraint products across digital health, B2B SaaS, ecommerce, and AI. Converts research and ambiguity into clear product direction, interaction models, scalable systems, and production ready experiences. Shipped 40+ healthcare screens, built an 80+ component system used across 3 products, and contributed to work linked to 20% higher usability, 25% higher retention, and 15% fewer support tickets.

EXPERIENCE

UX Designer | Light and Star USA | USA

Jul 2026 to Present

- Own end to end product design for responsive ecommerce experiences across discovery, product detail, and purchase, converting customer needs and business goals into production ready flows with engineering.
- Establish reusable interaction patterns and responsive components that standardize behavior across breakpoints and reduce design and implementation inconsistency.
- Prototype in Figma and code with AI assisted tools to validate edge cases before build and accelerate decisions with engineering.

UX Developer | RVCO Lab, Arizona State University | USA

Jan 2026 to Jun 2026

- Led product discovery and UX for 3 data rich research tools, converting 15+ interviews into workflow models, prototypes, usability tests, and prioritized product decisions.
- Improved usability scores by 20% and established 20+ reusable components to standardize complex research interfaces.

UI/UX Designer | WellDoc Inc | USA

Sep 2025 to Jan 2026

- Shipped 40+ production screens across 3 digital health products, simplifying clinically sensitive workflows while meeting accessibility and patient safety constraints.
- Built and operationalized an 80+ component design system used by 5 engineers across 3 products, defining states, responsive behavior, and implementation guidance.
- Partnered with engineering through design QA and created 10+ Lottie microinteractions to make feedback, progress, and system state easier to understand.

UI/UX Designer | Alliant Infotech | India

Nov 2021 to Nov 2022

- Led end to end redesigns for 3 B2B education platforms, restructuring workflows from architecture and prototyping through polished UI and engineering handoff.
- Used behavioral and support signals to prioritize high friction journeys, contributing to 25% higher retention and 15% fewer support tickets.

SELECTED PRODUCT WORK

SamePage | Live 0 to 1 product: Designed and built a responsive multiplayer decision product in Next.js, TypeScript, and Supabase; defined the core choice model and validated real time, refresh, and sharing behavior with 188 automated assertions.

ContextOS | Enterprise AI: Defined the product model and interaction system for explainable enterprise AI, turning Figma, Jira, Slack, and Notion signals into traceable recommendations with evidence, confidence, ownership, and human review.

AccessScope | Enterprise governance: Designed role based workflows for employees, managers, and IT, replacing binary approvals with scoped access, expiry, rationale, and auditable decision history.

ADDITIONAL EXPERIENCE

Designer, Contract | Mercor | Remote

May 2026

- Evaluated 200+ AI generated product submissions for usability, hierarchy, interaction quality, and accessibility.

UX Grader | Arizona State University | USA

Aug 2024 to May 2025

- Reviewed 500+ UX submissions from 80+ students, providing structured critique on research, interaction design, accessibility, and visual craft.

CORE SKILLS

Product Design: Product strategy, problem framing, complex workflows, interaction design, information architecture, responsive web and mobile UX, visual design

Research and Systems: User interviews, usability testing, synthesis, journey mapping, design systems, component architecture, accessibility, design QA

Technical and AI: Figma, Claude Code, Codex, Cursor, Figma Make, React, Next.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, Supabase, Postgres, Framer, Webflow

EDUCATION

MS, Human Computer Interaction (HCI) | Arizona State University | USA

Aug 2023 to May 2025

PG Diploma, Computer Applications | DAVV | India

2022

Bachelor of Commerce | DAVV | India

2021
