

Prakhar Jain

Product Designer

prakharux.com | linkedin.com/in/prakharvjain | 602 390 1516 | prakharjain180@gmail.com

Product Designer with 3+ years across healthcare, B2B SaaS and ecommerce. Connects research and interaction design to reusable systems, working prototypes and implementation reviews.

EXPERIENCE

UX Designer | Light and Star USA

Jul 2026 to Present

- Designed responsive discovery, product detail and purchase flows across 3 ecommerce journeys.
- Prototyped in Figma and code using Claude Code, Codex and Cursor; tested responsive states and edge cases with engineers before release.

UX Developer | RVCO Lab, Arizona State University

Jan 2026 to Jun 2026

- Improved usability 20% across 3 research tools, using 15+ interviews to prioritize workflows and test prototypes.
- Defined shared states and responsive patterns in 20+ reusable Figma components.

UX Designer | Welldoc Inc

Sep 2025 to Jan 2026

- Shipped 40+ production screens across 3 digital health products, keeping patient safety, accessibility and clear system feedback central.
- Built an 80+ component Figma system for 5 engineers and created 10+ Lottie interactions; documented states and reviewed implementation through design QA.

UI/UX Designer | Alliant Infotech

Nov 2021 to Nov 2022

- Redesigned 3 B2B education platforms from information architecture through engineering handoff. Used behavioral and support data to prioritize changes, increasing retention 25% and reducing support tickets 15%.

ADDITIONAL EXPERIENCE

Designer, Contract | Mercor

May 2026

- Evaluated 200+ AI generated product experiences for usability, visual hierarchy, interaction quality, accessibility and product coherence.

UX Grader | Arizona State University

Aug 2024 to May 2025

- Reviewed 500+ UX submissions from 80+ students across research, interaction design, accessibility, visual craft and design rationale.

SELECTED PRODUCT WORK

[SamePage](#) | **Live multiplayer product:** Built a responsive product in Next.js, TypeScript and Supabase. Tested shared state, persistence, sharing and failure handling.

[Lilly Health](#) | **Production healthcare UX:** Shipped Foundayo onboarding and reusable health data visualization across iOS and Android, making complex information clear in patient facing states.

[ContextOS](#) | **AI decision support prototype:** Designed traceable recommendations from simulated Figma, Jira, Slack and Notion signals, with evidence, confidence, permissions and human review.

CORE SKILLS

Product and research: Product strategy, interaction design, information architecture, responsive UX, visual design, prototyping, interviews, usability testing, synthesis

Systems and delivery: Design systems, component architecture, accessibility, engineering collaboration, implementation review, design QA

Tools and implementation: Figma, Figma Make, Adobe Creative Suite, Lottie, HTML, CSS, JavaScript, TypeScript, React, Next.js, Tailwind CSS, Supabase, Postgres, Claude Code, Codex, Cursor

EDUCATION

MS, Human Computer Interaction (HCI) | Arizona State University

Aug 2023 to May 2025

PG Diploma, Computer Applications | DAVV

2022

Bachelor of Commerce | DAVV

2021
